

EVO355
355mm TCT Industrial Cut Off Saw
Cuts Steel Without Heat, Burrs Or Coolant!
 Optional blades cut Stainless Steel & Aluminium.

- The EVO355 is robust, highly durable and can handle even the most demanding on-site jobs! Typically a Steel blade will perform 900 cuts of Steel plate - before a replacement is required!* Ideal for cutting Steel plate, box section, cast iron pipe, scaffolding, cladding and roofing.
- Advanced performance; out performs normal cutting saws. When cutting Steel, it leaves an instantly workable finish, producing no heat, no burr and virtually no sparks - unlike alternative methods.
- Fast action swivel clamp enables cuts to be made from 0-45°. Other features include a hi-torque gearbox which reduces motor stresses, improving performance and durability. Plus a 'pull-out' collection tray, making it easy and safe to dispose of sharp metal chippings.
- Cut Steel, Stainless Steel and Aluminium with the optional blades available! The combination of an Evolution Steel Saw and Steel Cutting blade, is the ultimate in Steel cutting technology. Add to this the comprehensive specialist blade range and the variety of applications you can cut becomes incredibly vast.
